Re: 2009/425/EC Regulation Banning Restricted Materials (TBT, TPT, DBT, DOT)

Dear Harris Products Group Customers,

Per the requirements of the above regulatory ban on the use of organostannic compounds, this letter confirms that the Harris Products Group solders, brazing, and welding filler metals and flux do not contain Tributyltin (TBT), Triphenyltin (TPT), Dibutyltin (DBT) or Dioctyltin (DOT).

The Harris Products Group does not use any form of the banned or restricted chemicals in the manufacturing process for Harris alloys and products. The Harris Products Group is an ISO 14001 certified company. Our goals include being environmentally proactive in complying with all environmental regulations as well as developing manufacturing processes and products designed to help our customers stay environmentally responsible.

Sincerely,

Robert M. Henson
Technical Director
Harris Products Group
A Lincoln Electric Company
